Profile

Software developer with good troubleshooting skills and a willingness to learn modern-day technologies. I develop software applications mainly with React and Node.js. My passion is not only implementing frontend features but also expanding my knowledge in backend development through combining apps with RESTful APIs and databases.

Skills

Languages : JavaScript + Node.js, TypeScript, SQL, HTML, CSS, SASS/SCSS

Frameworks / Libraries : React, Redux, Redux Toolkit, Next.js, Express, Tailwind CSS, Material UI

Databases : PostgreSQL, MongoDB, AWS DynamoDB

Others : AWS Lambda, AWS API Gateway, Firebase, Heroku, Git, GitHub, Bitbucket

Work Experience

React Developer

Goppter eCommerce Solutions | Feb 2022 – Jun 2022

- ◆ Translated Figma designs into good quality code with a focus on implementing maintainable and scalable components.
- ◆ Refactored existing code to make it cleaner and avoid side effects in other parts of the code.
- ◆ Optimized components to work seamlessly across different pages of the application.
- ◆ Followed proper documentation for changes in the application and further updates.

Logistics & System Engineer

SG Holdings Co., Ltd. | Apr 2017 – Mar 2021

- ◆ Designed warehouse management systems tailored to clients' needs.
- ◆ Developed a sales management tool using a business intelligence software.
- ◆ Analyzed clients' shipping data and provided suggestions for effective warehouse operations.
- ◆ Responsible for planning and managing all the process to launching a new distribution center.

Projects

Juno – online wedding invitations app

Full-stack app that allows users to create wedding invitations and manage RSVPs aiming to effortless organizing the event.

Tech stack : React, Redux Toolkit, TypeScript, Tailwind CSS, Figma, AWS Lambda, AWS API Gateway, AWS DynamoDB, Swagger, Serverless Framework

- ◆ Designed NoSQL database and serverless APIs using AWS services and built these functions with Node.js.
- ◆ Documented the APIs using Swagger so that other project members can verify the type and examples for every endpoint.
- ◆ Designed UI on Figma and implemented it in the code structured with Redux Toolkit.

Education

Cornerstone International Community College of Canada

Web and Mobile App Development | Sep 2021 – Present

Nara Women's University

Bachelor of Molecular Biology | Apr 2013 – Mar 2017
